

Find a job opportunity?

Save it.

Found something interesting?

Job opportunities appear everywhere:

LinkedIn

Recruiter emails

Job websites

Social media

Company websites

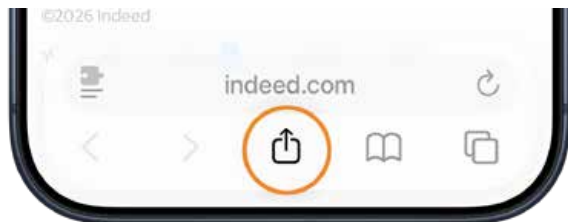

Save them before you forget them.

Save from a website or app

When you find a job opportunity while browsing, use the Share Sheet to send it directly to Jobodex.

Jobodex captures key details and creates a new opportunity for you to review later.

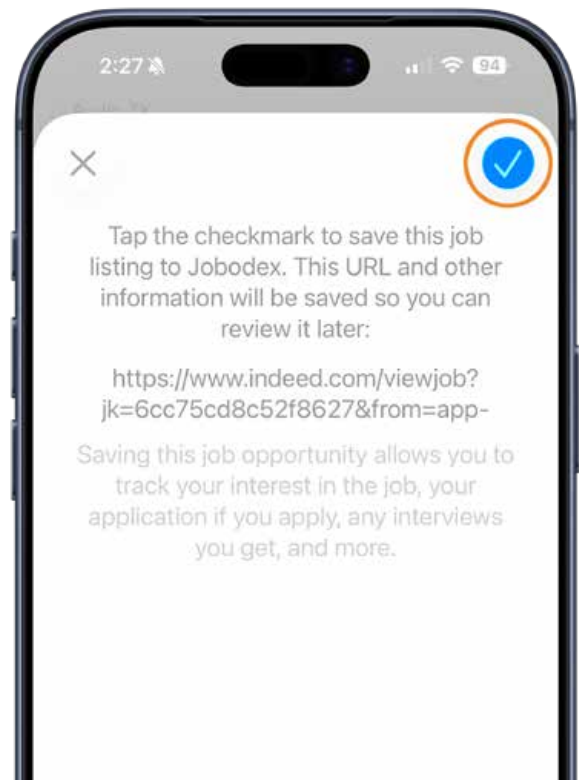

1. Find and tap the Share icon

2. Tap the Jobodex icon

3. Tap the check icon

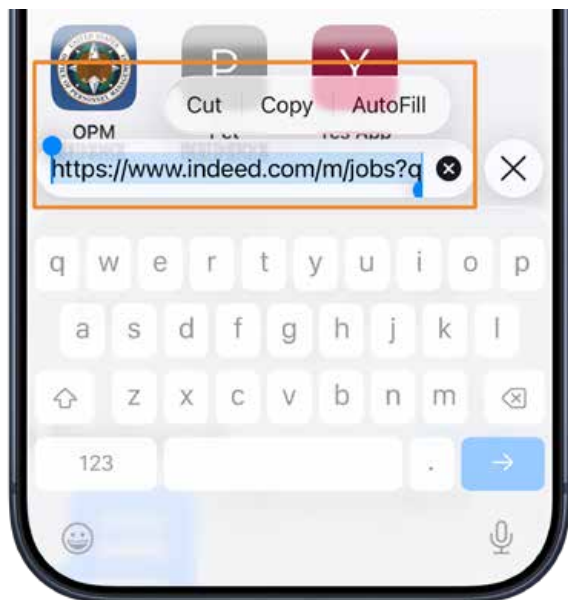

Or paste a URL

Just have a job posting URL?

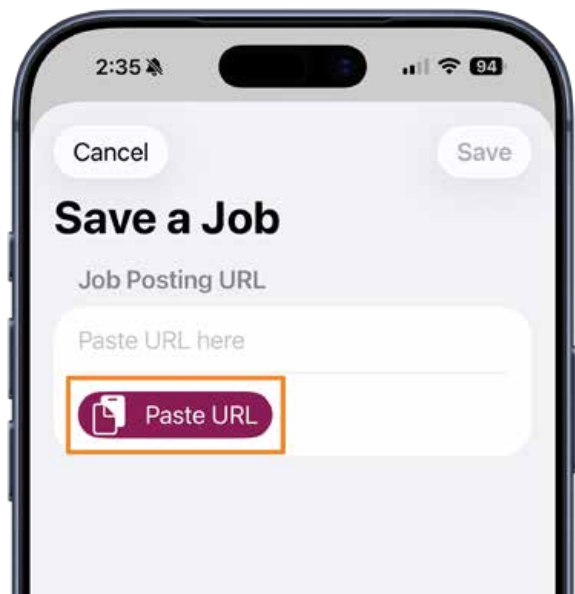

Copy the job posting URL and paste it into Jobodex.

Jobodex will create a new opportunity and save the details for you.

1. Copy the URL

2. Tap "Paste URL" button

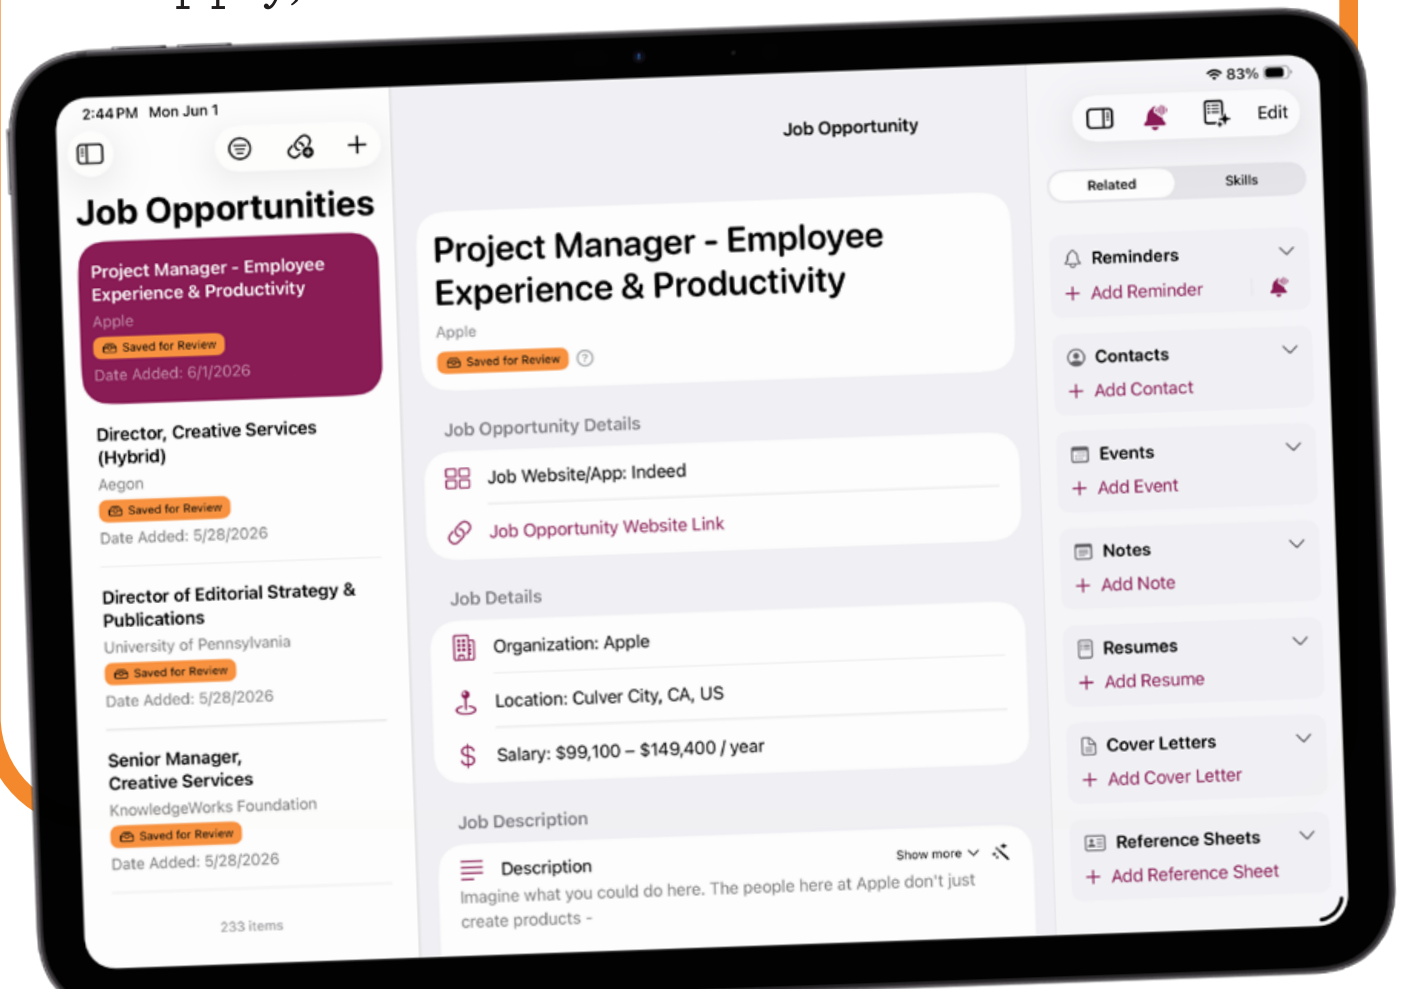

Now it's waiting for you

Every new opportunity starts in:

Saved for Review

When you're ready, review the opportunity and decide whether you're interested, want to apply, or want to move on.

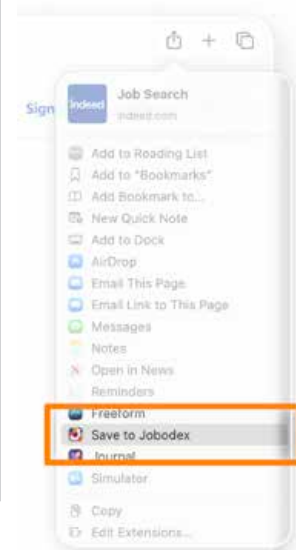

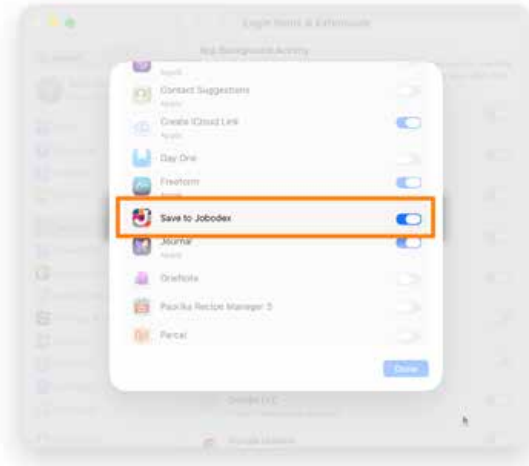

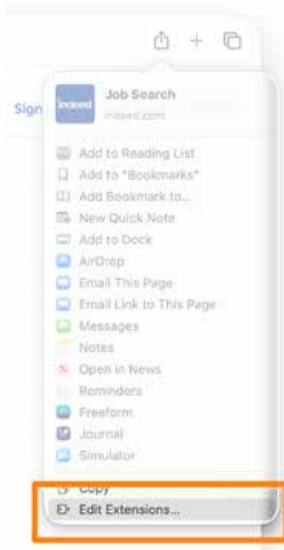

Using a Mac?

The Save to Jobodex extension is disabled by default.

Enable it once and you'll be able to save opportunities directly from Safari and other Mac apps.

1. *In the Safari share menu choose “Edit Extensions...”*
2. *Scroll to “Save to Jobodex” and enable it.*
3. *“Save to Jobodex” is now available.*

Jobodex it.

And keep your job search going.
